-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicants' arguments filed 2/21/2007 have been fully considered but they are not persuasive. Applicants argue that the upper surface of the body of Itoi et al. is not in direct bearing contact with the tapered face, the examiner disagrees. Because of the broad nature of the term "body", it can be construed as encompassing more structure than just the plate body. Itoi et al. does disclose a body (43, 46) that has an upper circular face in direct bearing contact with the tapered face. Since any changes to the grounds of rejection were necessitated by Applicant's amendment, the instant Office action has been made final.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,556,072 (Itoi et al.). Itoi et al. disclose a controller comprising a valve body (1), a fluid channel (11, 12), a valve stem (2), a casing (62), an operating rod (21), a drive means (25), force amplifying means (26, 41, 45, 46), a tapered member (26), a disk member (19), a first and second pivotal member (43, 45, 46), an axis of pivot (about element 51), a plate body (43), an upper contact face (surface of element 46), a lower contact face (surface of element 45), wherein the lower contact face (surface of element 45) forms a circular-arc (figure 3) about a center lone positioned away from the axis of pivot (about element 51), wherein the tapered member (26) is a

rectangular parallelepiped (figure 1), wherein the operating rod (21) is integrally provided at a lower end operation thereof with the tapered member (26), a piston (25), a cylinder chamber (65), and wherein the upper contact face (surface of element 46) forms a circular arc (figure 3).

*Allowable Subject Matter*

3. Claim 2 is allowed.

*Conclusion*

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

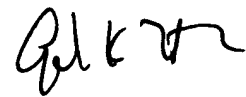

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
